Our Short-Term Program offers the largest unit of study selection in Australia to Study Abroad and Exchange students. Each unit is taught in an intensive format, while maintaining credit values. Many units of study are taught alongside local students and provide hands-on experiential learning in an Australian context. Students can select up to two units of study.

Most units of study have no pre-requisites and are great for general elective credit back home. We also have some more specialised, core units of study, designed for Business and Liberal-Arts majors.

In 2021, some of our most popular unit of study options include:

- **Introduction to Gender Studies (GCST1602):** This unit examines how gender organises lives, bodies, sexualities and desires. Students will be introduced to foundational concepts in the study of gender and will critically engage with questions of identity, sexuality, family, the body, cultural practices and gender norms in light of contemporary gender theories.

- **Cross-Cultural Management (IBUS1102):** This unit provides conceptual frameworks and evidence from practice that develops an understanding of the ways in which cultures differ, how these differences can impact management, and how cultural issues can limit organisational effectiveness.
- **Diet and Nutrition for Health and Sport (EDGU1003):**
  This elective aims to equip students with the knowledge required to make informed food choices and gain skills in analysing their personal diet and nutrition habits. At the conclusion of the elective, each student will be a mythbuster of common diets, supplements and fads touted by the media, and be able to separate fact from fiction.

- **Sydney Science 2050: Towards the Future (SCIE1001):**
  What is it about many scientific claims that often generate mistrust and confusion in the broader public? Creating and communicating valid scientific evidence and arguments requires a skilful balance of truth, objectivity and evidence. Learn how to leverage ways of interdisciplinary and inter-cultural thinking and points of view to communicate your decisions to a variety of professional and lay audiences.
- **International Human Resources Management (WORK3201):** This unit considers the opportunities and challenges associated with managing employees in international and cross-cultural contexts, with specific emphasis on international recruitment, selection, preparation, placement, management development, performance management, reward and remuneration in the international, multi-national and trans-national corporation.

- **Introduction to Indigenous Cultures (INDG1001):** This unit introduces students to Indigenous Australia in a stimulating, in-depth study of traditional and contemporary forms of Aboriginal and Torres Strait Islander cultural expression. Ranging from the Dreaming and ancient knowledges,
ceremony and lore, to the lives and societies of Indigenous peoples today. Students learn in areas such Aboriginal kinship, language, story and art, Indigenous agriculture, aquaculture and astronomy, and contemporary Indigenous cultures and cultural currents.

- **Sport and Learning in Australian Culture (EDUH4058):** This unit provides students with a socially critical perspective on the place, meaning and practice of sport in Australian culture. Focused on the range of learning that takes place through youth’s engagement in sport, it examines the practice of sport at levels ranging from elite international sport to grass roots, community-based and school sport. Students in this unit participate in excursions to local rugby, Australian rules football (AFL), beach sports events, and more!
